

Scott Morgan

FULL STACK DEVELOPER

Profile

I am a Full-Stack Software Engineer with a background in Control Systems Engineering who is passionate about creating user-friendly applications by writing clean, efficient, and maintainable code. I am looking forward to joining an innovative, dynamic company where I can utilize my strong problem solving and collaborative skills to build meaningful and impactful products.

Accomplished full stack developer with strong experience in the development of web applications like SaaS, CRM, eCommerce, market places, FinTech platforms, etc based on JavaScript and PHP.

In my career I created multiple great websites for my clients to help them have a perfect internet presence, start a business, or improve their client's quality of live by having a professional and reliable website.
